1. Visa: Visa on arrival is available for US Citizens and the ASEAN Community. However, the quickest way to obtain a visa is via the official website: <https://www.evisa.gov.kh> Please ensure that you are using the correct site. There are several 2 party agencies that do this for additional fees. Steer clear of them. The online fee for the visa is \$36.00. When you receive your visa via email print 2 copies. 1 Copy will be given to the Immigration officer and the 2nd one you can insert into your passport. Another benefit of doing your visa online is, you can remove the visa from your passport when your trip is completed saving the loss of a passport page which would happen when purchasing your visa at the airport on arrival.
2. Travel cost from the airport to the hotel. Average cost of a taxi is \$10 - \$15. There are also what we call Tuk Tuks. This ride should not be any more than \$8.
