

Where the Community Service Report Dollar Amount Comes From

Independent Sector each year estimates the value of volunteer time, to show the contribution of individuals and organizations to their communities in a dollar value.

This number allows us to show the value of the VFW member's volunteer time as if they were paid, which we use for reporting to the IRS and as a recruiting tool.

Below is the link for the Independent Sector's website and new value for the 2020 year.
